ACCELERATED LITERACY GROWTH WITH PROVEN RESULTS

Achieve3000 Literacy is a personalized, adaptive digital learning solution that accelerates literacy growth for all students through differentiated content and instruction. A wide body of research, including a gold standard study with a rating of Strong from Evidence for ESSA, has shown *Achieve3000 Literacy* can double and even triple expected learning gains.

Here's how it works:

- LevelSet™ assessment establishes students' reading levels, and are adjusted in real time through embedded assessments.
- Lesson routine develops comprehension and literacy skills.
- Culturally relevant fiction, nonfiction, and poetry engages students.

- Content is differentiated to 12 levels in English and eight in Spanish.
- WordStudio is an intervention tool designed to help below-grade-level secondary readers strengthen their foundational literacy skills.
- Career Center lets students set goals and track their progress toward reaching them.
- Easy-to-use dashboard allows teachers and administrators to track student progress.

A Dynamic Learning Tool

Data from multiple-choice activities enables *Achieve3000 Literacy* to automatically adjust text complexity when students demonstrate readiness for higher-level texts. With this “just-on time re-leveling,” students progress steadily toward college and career readiness targets for their grade.

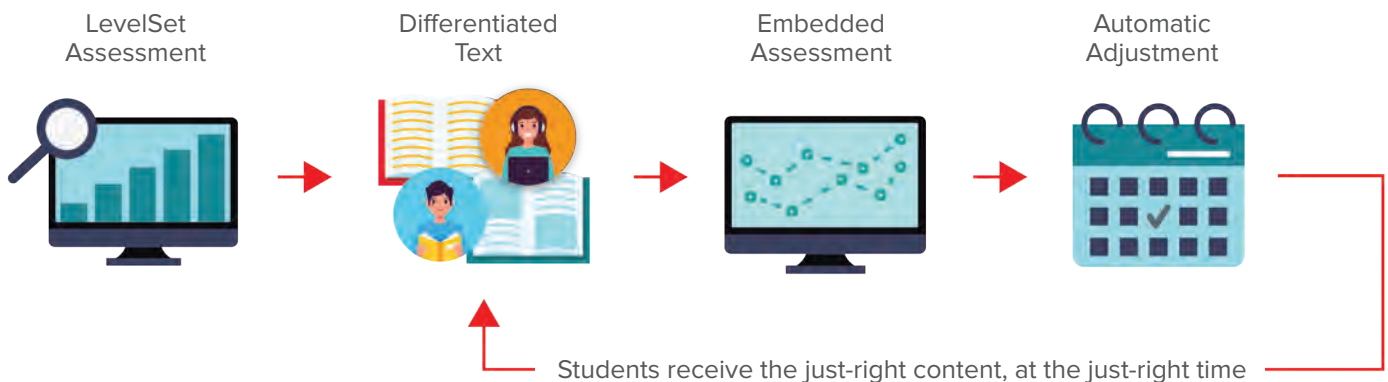

The latest national Lexile study shows *Achieve3000 Literacy* delivers above expected growth for all students.

Mastery Learning Through Engaging Content

Students begin each year by completing the LevelSet assessment, which can also be administered at mid-year and year-end. Based on the results, each student is assigned timely, culturally relevant lessons at the just-right reading level for their needs, for use in ELA, science, and social studies classes. Lessons range from a reading and comprehension activity structure to a more robust five-step literacy routine, which allows students to:

- Activate prior knowledge.
- Express and defend opinions informally.
- Complete an activity to check comprehension.
- Practice close reading and cite evidence.
- Produce academic language in writing.

How It Works

“I’ve seen growth across the board with *Achieve3000 Literacy*, from our most struggling to our most advanced readers. We’ve seen some kids reaching 150% to 250% growth, which is really incredible.”

—Adrianna Ramirez,
6th Grade Teacher,
Liverpool School District, NY

A PARALLEL SPANISH LITERACY PROGRAM

Maravillas, a full Spanish literacy program for grades K–5 in the *Wonders*® suite of resources, supports students as they become bilingual, biliterate, and bicultural. Instructional plans, themes, skills, strategies, and test preparation mirror those of the core English Language Arts *Wonders* program. With a wealth of authentic literature ranging across the Spanish-speaking world, *Maravillas* gives students equity of access to rich texts and rigorous instruction.

Maravillas is a perfect fit for bilingual, one-way, or two-way dual immersion classrooms. *Maravillas* provides content that leads Spanish-dominant students to become literate in their native language and English-dominant students to become literate in a second language. At the same time, *Maravillas* imparts cross-cultural appreciation with the “Nuestras Maravillas” lessons.

Maravillas is committed to providing learners support as they simultaneously learn content and language. The “Bridge to English” lessons connect Spanish language skills with the English language in four modalities: reading, writing, listening, and speaking. Students learn key similarities and differences in two languages and what skills are transferable and non-transferable.

WHAT'S IN THE BOX?

With an easy-to-use box of self-guided and leveled selections for a given classroom, *Reading Laboratory* lets you develop confident readers through supplemental and personalized K–12 reading content that ensures each student is working at the appropriate level and moving ahead at their own pace.

Power Builders and Key Cards

Power Builders are the heart of the program. Each *Reading Laboratory* has more than 100 Power Builders—four-page booklets arranged in color-coded levels that keep students challenged as they progress through the program. Each Power Builder has three key parts:

- A high-interest fiction or nonfiction reading selection with accompanying photos or illustrations.
- A Comprehension section that poses multi-leveled questions about the reading selection.
- A Learn About Words section that includes vocabulary and word-study exercises.

Learn About Words (continued)

Read the words you wrote. Which one best fits in each sentence? Write the word.

- This fish's _____ is as small as a sunflower seed.
- It takes a lot of _____ for a deer to leap over a tall fence.
- The duck uses its yellow _____ to sip water.
- If acorns _____ from your bucket, a squirrel might eat them later.
- The black bear _____ begin to prepare for hibernation in October.

Focus on Skills

Word pictures help you see things more clearly. They tell you more about a story. Choose the sentence that gives a better picture. Write a or b.

- a. The squirrel gathered things for its nest.
b. The squirrel gathered leaves and twigs for its nest.
- a. I saw two deer today.
b. I spotted two deer this morning.
- a. The black bear snuggled in his warm den.
b. The black bear slept in his den.
- a. The chipmunk scurried through the grass.
b. The chipmunk ran through the grass.
- a. The woods are full of wild animals.
b. The woods are full of animals.

Animals in the Woods

spots on the baby help it hide. Squirrels make sturdy nests in the woods. Squirrels pack their nests with sticks and leaves. Chipmunks make homes in the woods. Some chipmunks dig tunnels in the ground. The tunnels lead to sleeping rooms. The tunnels also lead to rooms for keeping food. Who else has a home in the woods?

Learn About Words

i - ft - st - pl
2 - b - z - c
3 - x - y - g
4 - l - q - w
5 - sk - bl - pr

Look at each row of letters. Add one letter or group of letters from each row to if to make a word. Write the word.

Rate Builders and Key Cards

These short, timed readings improve fluency by helping students read faster while maintaining comprehension. Students are given three minutes to read a selection and answer the questions that follow. Rate Builders are organized into color-coded levels corresponding to Power Builder levels that gradually increase in reading skill level.

Available in *Reading Laboratory 2* and *3* series only.

If you see a tree with acorns on it, you can be certain it is an oak tree. There are many different kinds of oaks. Each kind has differently shaped leaves and acorns. Most oaks are divided into two main groups—the white group and the red group. The leaves of the white group are smooth and rounded, and the leaves of the red group have sharp points on the tips. Acorns are nuts, the seeds of the oak trees. They sit in cups, with two or three acorns, together near the ends of the branches. Acorns need to be buried in the ground before they can grow into oak trees.

1 You can be certain a tree is an oak if it has:

- leaves
- acorns
- smooth leaves
- sharp leaves

2 Each kind of oak has differently shaped:

- leaves
- acorns
- both a and b
- neither a nor b

3 All oaks are divided into two main groups:

- two
- three
- four
- five

- smooth and straight
- sharp pointed
- smooth and rounded
- neat of the above

5 Acorns are found on oak trees:

- to the right
- two or three together
- near the ends of the branches
- all of the above

6 To grow into oak trees, acorns must be:

- buried
- spinned
- walked
- watered

7 You can be certain a tree is an oak if it has:

Learning's Not a Destination, It's a Journey

Rise™ | Grades K–8 ELA and Mathematics

Learning in today's environment can be a challenge for teachers and students. Whether it's virtual, in a brick-and-mortar building, or a combination of the two, changes to today's learning environment can impact each student's learning journey in different ways. But long-term lost learning doesn't have to be one of the consequences.

Rise

- Identifies each student's learning gaps.
- Creates a unique learning sequence and pace for each student.
- Covers over 500 key grade K–8 learning objectives for ELA and math.
- Reinforces topics and mastery with the Recharge feature.
- Provides free offline access through the *ReadAnywhere*® app.

How It Works

Rise is curated from McGraw Hill's proven content and is uniquely designed to ensure that students aren't revisiting lessons they've covered in other programs. Teacher assignments can focus on filling student's learning gaps while also reinforcing the topic mastery of students who are performing at grade level. Each grade-level objective presents the student with mini-cycles of questions to assess their learning progress. When students demonstrate they've learned an objective, they move on. Students who need more practice with a concept receive prescribed guided interactive reteaching activities to reinforce their learning.

Powerful Reporting that Makes a Difference

Rise gives teachers and students the data and information they need to measure progress and engage with content to ensure mastery.

Students are able to architect their own learning path through prescribed support resources, a self-study Recharge feature, and through a customized student reporting dashboard that allows students to view their performance summary and the objectives where they need reinforcement.

Teachers access a progress monitoring dashboard to identify students at risk or behind grade level, and to review the concepts and topics each student needs to master. Metacognition of students' confidence, overall class performance, and specific student's performance on assignments provides teachers with in-depth progress monitoring and real-time content mastery feedback.

How Do I Integrate *Rise* with My School District?

Rise is available through the McGraw Hill single-sign on and is powered by an adaptive learning engine. Upon purchase you'll also receive access to the free *ReadAnywhere*® app that allows for offline access.
